VAI KRISHNAN

FINAL-YEAR SOFTWARE ENGINEERING STUDENT | GRADUATE ICT & DIGITAL

Perth, Western Australia | 0450 955 918 | vaikrish8@gmail.com | Australian Citizen

PROFESSIONAL PROFILE

Final-year Software Engineering student at The University of Western Australia with practical experience in software development, API integration, AI-assisted information processing and data analysis. Strong foundations in algorithms, operating systems, networking and software design, complemented by experience working in agile teams and fast-paced environments. Analytical, adaptable and motivated to apply technology to practical problems and deliver better outcomes for the WA community.

CORE CAPABILITIES

Software & Development Python, Java, C, JavaScript (basic); RESTful APIs; software design	**Digital & Data** AI search and decision-making; OCR and LLM-assisted information extraction; data analysis
Infrastructure & Tools Git/GitHub; Linux/UNIX; collaborative development workflows	**Delivery & Collaboration** Agile workflows; requirements-to-deployment project work; remote teamwork
Research & Analysis Technical research; analytical problem-solving; evaluating information and solutions	**Communication & Service** Clear communication; customer service; teamwork; adapting to stakeholder needs

EDUCATION

Bachelor of Engineering (Honours) – Software Engineering | The University of Western Australia

Expected graduation: 2026

Relevant units: Object-Oriented Software Engineering; Algorithms, Agents & Artificial Intelligence; Computer Networks; Operating Systems; Agile Web Development; Software Requirements & Project Management; Computational Data Structures.

PROFESSIONAL EXPERIENCE

Software Developer Intern — Rhombuz.io | *January–March 2026*

- Contributed to a media monitoring solution designed to detect and analyse emerging public safety and incident-related information from social and broadcast media.
- Integrated and tested Twitter/X API workflows for keyword tracking, trend discovery and relevance filtering across location-based datasets.
- Applied OCR and LLM tools to support automated extraction and analysis of information from video and text sources.
- Worked remotely with team members, communicated progress clearly, responded to feedback and adapted within a fast-paced development workflow.

Barista — Dome Cafe | *September 2024–Present*

- Deliver consistent customer service in a high-volume environment while maintaining quality, accuracy and professionalism.
- Manage competing priorities and time effectively alongside university study commitments.
- Contribute reliably within a team and communicate clearly with colleagues and customers.

Bike Hire Operator — Mobius Engineering Pty Ltd | *April 2021–June 2024*

- Serviced and repaired bicycles with a strong focus on safety, reliability and efficient problem-solving.
- Provided tailored customer assistance and supported sales operations, adapting recommendations to individual needs.

SELECTED ACADEMIC & PROJECT EXPERIENCE

- Developed RESTful web applications using Python-based frameworks, applying software design and API development principles.
- Built AI search agents using heuristic and decision-making algorithms, strengthening analytical reasoning and problem-solving skills.
- Collaborated in agile teams to deliver software from requirements through deployment using Git and shared development workflows.

VOLUNTEERING

Volunteer & Fundraising Participant — Cambodia | *2019*

- Helped restore school classrooms and assisted with English-language activities.

ADDITIONAL INFORMATION

- Australian Citizen; based in Perth, Western Australia.
- Available for full-time graduate employment following completion of degree in 2026.

REFEREES

Available on request.
